CSMSJ
Caribbean School of Medical Sciences, Jamaica

Pre-Med Program

Full Time and Part Time

Your
first step
to a rewarding career in
medicine

WHO ARE WE?

Poised to become one of Caribbean's premier institution for medical education and training, the Caribbean School of Medical Sciences, Jamaica (CSMSJ) is committed to developing a quality workforce of professionals ready to confront and conquer the challenges of 21st-century medicine.

CSMSJ is headed by Dr. Neville Graham, OD, MD, FRCS (Edinburgh), Consultant Surgeon and Dean with Professor Errol Morrison, OJ, MD, PhD as Chairman of Board of Governors.

.....

INCEPTION

Located in the heart of the business district at 15 Braemar Avenue, Kingston 5, Jamaica, the school was conceptualised by some of the nation's most preeminent medical professionals, who saw the need for an institution which offered first-class training and contributed holistically to the development of excellent practitioners. These stalwarts in the field are committed to sharing their expertise and proficiency with students, who will leave CSMSJ scientifically prepared, clinically competent, technically skilled and with humane approach to the practise of medicine.

ENDORSEMENTS

CSMSJ is a registered by Jamaica Tertiary Education Commission as tertiary institution in Jamaica and has applied to CAAM-HP for accreditation.

WHY OUR PRE-MED PROGRAM?

A distinguished medical career starts here. Our commitment is to provide students with a sound foundation on which they can build solid, durable careers.

After completing the pre-med program, students will earn a diploma in natural and pre-med health sciences. This will enable them to gain entrance to a Doctor of Medicine (MD) program, or to pursue their area of specialization.

FACILITIES

- Spacious library
- Fully equipped lecture theatres, study rooms and resource centres
- 24/7 secured WiFi
- Blended learning environment: classes/ courses accessible online
- well-equipped laboratories

THE PROGRAM

This program is ideal for graduating High School students who are committed to study medicine and are ready to begin their medical studies immediately after completing high school. It is also the path for non-traditional students who need to complete prerequisite courses before being accepted to the medicine, dentistry and veterinary sciences program of their choice in Jamaica, the Caribbean and North America.

ENTRY REQUIREMENTS

Five CSEC subjects at the General Proficiency Level (B+ and above) including:

- Mathematics and English
- Three other subjects which must include a minimum of two related science subjects (e.g. Biology, Physics and Chemistry)

*** Equivalent qualifications from other countries, which will be verified by the Programme Director.**

DURATION

A Pre-Med Program of four (4) semesters, and ninety (90) credit hours that will culminate in a Diploma.

These students will be able to do the Medical College Admission Test (MCAT) and can apply for General Medicine, Dentistry or Veterinary Sciences.

CERTIFICATION

On successful completion of this course of study, the graduates will receive the Diploma in Pre Med.
