UNIVERSITY OF THE COMMONWEALTH CARIBBEAN
Fostering Leadership & Innovation

CEMPA PROGRAMME LEARNING OUTCOMES

On successful completion of the programme, students will be expected to:

1. **Demonstrate comprehensive knowledge and understanding of the theories and principles of leadership, management, administration, and policy within the public sector.**
2. **Use data to analyse organisational and development challenges in local communities as well as the global environment and create research-based solutions.**
3. **Demonstrate understanding of the regulatory, social and environmental issues related to public administration, policy, development, and implementation.**
4. **Analyse, evaluate and reflect on ethical and governance issues in public and non-profit entities and respond appropriately based on the different contexts.**
5. **Effectively apply concepts and techniques of area of specialisation in developing strategic plans, managing projects, and providing solutions to challenges.**
6. **Communicate clearly and effectively as leaders in the organisation and community, and in the public service.**
