Report all institutions attended, regardless of:

- Their relevance to the programs you're applying to, and
- Whether the coursework completed there was transferred to another institution.

Also, report each institution only once, regardless of the number of degrees earned or gaps in the dates of attendance. Click here for more information.

Each program decides the types of transcripts you must submit; this information is displayed at the bottom of this page.

- If your program requires official transcripts, you can request these electronically from Credentials Solutions, National Student Clearinghouse, and Parchment, or by mail. Click here for more information.
- If your program requires unofficial transcripts, click the **Upload Transcript** button and upload any associated transcripts.

If you attended a foreign institution, review your program's foreign evaluation requirements and preferred evaluation services. You can request a World Education Services (WES) foreign evaluation by clicking **Order WES Evaluation**. You can also request foreign evaluations from other approved foreign evaluation vendors. If your program requires unofficial foreign transcripts, click the **Upload Transcript** button and upload any associated transcripts. Click here for more information.

Once you submit your application, you cannot edit previously entered colleges and universities. You can add new institutions and update ones where your attendance is listed as Still Attending.

Welcome to ELE

South Florida is a hub for logistics companies. Many key global shipping lines and airline alliances have a presence in Florida and, in fact, the state is home to one of five U.S. exporters. Several of these corporations are looking to hire local talent who are ready to start working after graduation, equipped with specific skills, requiring minimal training on company site.

The Enterprise and Logistics Engineering (ELE) at Florida International University (FIU) offers several signature programs, both online and face-to-face, preparing students and professionals with broad knowledge and skills, combining business and engineering, to meet industry's needs.

Ranked #16 for best online master's degree in engineering management by Best College Reviews, ELE offers master's degree programs and certificate programs in engineering management, logistics engineering, enterprise and systems engineering. Students will not only be exposed to the theory, but also learn from industry insiders and curriculum geared toward addressing real-life industry problems. Program graduates will have the practical knowledge, insider expertise and problem solving skills, ready for job placement right after graduation.

Please visit our "Programs" page to learn more about graduate and certificate programs tailored to help students and professionals who want to stay in technological environment but focus on managerial roles.
